Trash, loose mixed waste disposal unavailable at Kapa'a refuse transfer station due to electrical issues

Due to electrical issues, trash and loose mixed waste disposal at the Kapa'a refuse transfer station is unavailable until further notice. Green waste is also closed due to muddy conditions.

Waste diversion services are still available, including tires, appliances, scrap metal, used motor oil, and propane tanks.

Residents and businesses are being redirected to the Hanalei or Lihu'e refuse transfer stations.

A timeline for the reopening of trash and loose mixed waste disposal is currently being assessed. Updates will be given when more information becomes available.
